August 2, 2021 (the email sent to families had an incorrect date of September 2, 2021)

Dear Veterans Home Residents, Families and Family Representatives:

As we continue our COVID-19 testing, we have identified two employees who have been diagnosed with COVID-19. While conducting contact tracing it was determined that all residents that were in work areas have been vaccinated. No signs and symptoms of any residents are noted. All residents at the Veterans Home will be retested every 3-5 days until 14 days have passed without a new positive employee. Additional environmental cleaning continues to take place and we will conduct enhanced surveillance, including 4-hour symptom and temperature checks, for residents for the next 14 days. We continue working with the Kitsap Public Health District to determine next steps with regard to additional measures. We also are following guidance from CDC, CMS and our State Department of Health to ensure we are safeguarding our residents and staff. Staff will continue to monitor whether they have any symptoms, including the presence of a fever. As part of our ongoing screening process, all staff are screened upon arrival at work each day. This process includes a series of questions around whether symptoms are present and a temperature check. In addition, staff are asked to report any symptoms that occur after coming to work. The Veterans Home, is following guidance from the Centers for Medicare and Medicaid Services, which requires regular testing of all long-term care facility staff. Currently the rate of positivity in Kitsap County requires staff to be tested monthly. This may result in the identification of asymptomatic carriers, but is an important tool in defending against COVID-19. In an effort to provide information as quickly and accurately as possible, we have developed a website to provide information to families and resident representatives, <https://www.dva.wa.gov/covid>.

Yours in Service,

William McElya, BSNS MBA LNHA  
Administrator U.S. Army
