

# Washington State Department of Veterans Affairs News Release

**February 18, 2022**

**Statewide:**

WDVA will send weekly News Releases with the updates on COVID-19 Resident cases in our State Veterans Homes.

**Soldiers Home, Orting:** No change.

**Veterans Home, Port Orchard:** No change.

**Walla Walla Veterans Home:** No change.

**Spokane Veterans Home:** A total of 11 Residents have been diagnosed with COVID-19 since December 29, 2021.

Residents on the affected units are being proactively tested. We are working closely with the local health jurisdictions and following guidance from them, the Centers for Disease Control, Centers for Medicare, and Medicaid Services (CMS), and our State Department of Health to ensure we are safeguarding our residents and staff.

Staff are tested in accordance with guidance from local health jurisdictions as well as CMS and our State Department of Health. Staff are also paying close attention to whether they have any symptoms, including the presence of a fever. As part of our ongoing screening process, all staff are screened upon arrival at work each day. This process includes a series of questions around whether symptoms are present and a temperature check. In addition, staff are asked to report any symptoms that occur after coming to work.

All staff are wearing appropriate PPE and we have adequate supplies of all PPE. Additional environmental cleaning continues to take place.

As a part of our continued effort to curb the spread of the COVID-19 virus, the State Veterans Homes are vaccine administrators and are providing COVID-19 vaccines and booster shots. We encourage all residents, staff, and community members to consider getting vaccinated and getting a booster for COVID-19.

In an effort to provide information as quickly and accurately as possible, we have developed a website to provide information to families and resident representatives, <https://www.dva.wa.gov/covid>.
