Dear Residents, Families, and Resident Representatives,

We've changed the format of our notification letters to allow you to easily scan for changes. These letters are sent to provide you with up-to-date information on the COVID-19 status in our Home, and meet the notification requirements of CMS and L&I.

We are working closely with our local Health Department, Centers for Disease Control, Centers for Medicare and Medicaid Services (CMS), and our State Department of Health and following their guidance and recommendations to ensure we are safeguarding our residents and staff.

Facility Maintenance

- Our Housekeeping, Maintenance and Laundry departments continue to ensure that our facility, equipment, and linens are kept clean and sanitized. Our housekeeping team provides continuous disinfecting of all the most commonly touched surfaces within the building along with the daily cleaning, sanitation, and repair routines that they provide.
- For the safety of the visitor, in general, residents/patients are encouraged to limit in-person visitation while they are infectious. There is a risk that you contract COVID-19. While visiting only visit the resident/patient room. Minimize time spent in other locations in the facility.
- Visitors should not visit the facility until 10 days from COVID-19 illness. Visitors not up to date with COVID-19 vaccines should not visit the facility until 10 days from COVID-19 exposure, or 7 days with a negative test.
